What's New in the?

This program is intended for determining the typing speed in any text editor. Features: Support for many text editors Keyboard shortcuts The program supports 2 keyboards Language support: English, Czech, French, German, Greek, Italian, Portuguese Text editor configuration. Idle time counting in different modes Timeouts in waiting mode "If you press more than X keys during X seconds, it will be counted as Y seconds" Charset detection Test mode Requirements: Windows XP, Windows Vista, Windows 7, Windows 8 .NET Framework 3.5 Notes: Idle time counting: idle time is counted, once the program is switched to waiting mode. Time is counted from the beginning of waiting mode. Known issues: The program takes a lot of time to "switch" to waiting mode. If you are not pressing any keys, program will detect that you pressed one or more keys and switch to waiting mode, only then you can continue using the program. This is because counter makes a (very) long switch between waiting and counting mode. Bugs: Some bugs are in 1.5 version. Change log: 2015-03-14 Version 1.5 Fixed the bug when one of the keyboard is disabled in Windows 7 or Windows 8 and program started to make checks if program is started with keyboard disabled. Version history: 2015-03-14 Version 1.5 Added support for Windows 8. 2015-01-12 Version 1.4 Added support for Windows 7. 2014-11-13 Version 1.3 Added Czech language support. 2014-10-28 Version 1.2 Added support for French keyboard. 2014-10-26 Version 1.1 Added support for French keyboard. 2014-09-22 Version 1.0 Initial version.
