I have just finished converting a couple of "test" files to see how it would go. First let me say that it worked perfectly on both test files. I just ran the conversion and it completed in the amount of time specified. I have been testing various conversions from other sites and this is by far the fastest and smoothest. I am a fairly good computer user and I have tried many programs over the years but none can compare to this one. Thank you. Converts to various video formats by Petter Bjelland I have been trying to find a program that can convert my.SWF files to a variety of video formats. This software is perfect in doing so. I have tried so many and this one takes first place. Thank you for your excellent customer service. brilliant, but needs a small improvement by Frank This software does an awesome job converting flash videos to video files, It is very easy to use, but I would like to have the ability to choose what section of the flash file I want to use to create the video file. For example, if I want a section that includes the header, footer and the main content of the video. However, I could not find a way to do this. Thank you for your assistance. Amazing Flash to Video Converter by B It is very easy to use, just a couple of clicks, I am impressed. Happy with the download! by M I'm very pleased to say that the download was delivered the very next day! That is very impressive
